

## DISTRICT WINS AGAIN IN WILSON CASE

The school district has been notified that the New York State Court of Appeals has denied a petition from former Superintendent Janet Wilson to revisit the Board of Education's decision not to renew her contract in June of 2007. This represents another legal victory for the Board in this matter. In addition, Dr. Wilson has been ordered by the Court to reimburse the district for costs associated with document reproduction in this claim. As we have previously communicated, the Board is pleased that it has ultimately prevailed in this matter.
